## ● ABOUT ME

🎯 Front-end developer with a background in web and hybrid mobile development, having 1 year of experience in HTML5, CSS3, JavaScript and Ionic (Angular).  
Graduated as a Chemical Engineer with 2 years of experience.  
Disciplined, organized, humble and righteous person.

## ● WORK EXPERIENCE

🎯 **FREELANCER - FRONT-END DEVELOPER | OCT 2019 - OCT 2020**  
*inlabs, remote*

- I created an hybrid mobile application for android, ios and web, using technologies such as HTML5, CSS (SASS), Ionic Framework, Angular, PhoneGap/Cordova.
- I implemented an Admin Dashboard for the administration of the application, applying Responsive Design to be used from web and mobile.

🎯 **FREELANCER - FRONT-END DEVELOPER | MAR 2019 - APR 2019**  
*crowdswap, remote*

- I redesigned the new responsive website for Crowdswap using React with Gatsby for static pages generation.

🎯 **RESEARCH AND DEVELOPMENT ENGINEER | FEB 2017 - AUG 2018**  
*senco colombiana, medellin*

- Evaluate the quality of raw materials and product in production line.
- Study of different materials and its possible inclusion to the process as raw materials or as additives.
